Nov-19	Dr. Pannucci is absolutely the best Doctor I've ever had in my life! He and Dr. Matsen saved my life. When Dr. Pannucci did my Flap Surgery and Breadt Reconstruction, he made my recovery so easy. I did not have any grief over the loss of my breast and no psychological issues. In fact. it's like I was given a start on a new life. I can't explain the feelings but I wish every woman with Breast Cancer could know about Flap Surgery and Dr. Pannuci. My recovery was so easy and everything was so perfect. Thank you Huntsman and Dr. Matsen; but most of all, thank you Dr. Pannucci!
Oct-19	Dr Pannucci is always very good about giving me realistic options. He explains the options well and leaves the decision to me without pressure.
Sep-19	Amazing people service and care
Sep-19	clear detailed
Sep-19	Dr. Pannucii was very good and provided a lot of information. He definitely has a preferred procedure, but he did provide information for each procedure that is an option for me if he did the surgery. He is very confident in his field of expertise. We got a lot of information and it is difficult to remember it all and try to piece it back together after the appointment. There is definitely an element of 'sales pitch' but I believe that is part of his profession. I was on information overload, and i would have benefited from handouts/papers that I could take home and review with a little bit clearer head. Dr. Pannucci kept procedure names very generic and going home later it would be nice to be able to look up the particular procedure. I expect that this was just the first consultation and because there is so much information details are kept high level. He stated that he has done hundreds of these procedures and I think that one fact that would be helpful for me might be know the success rate of those hundreds of procedures. And the success rate for the procedure in general. Again, this was a first consultation and I had no idea what questions to ask and I didn't even know that one of the procedures even existed. having a pamphlet or material describing the procedures to take home would be helpful. Overall, i was comfortable with Dr. Pannucci.
Sep-19	He is great. I am sad he is leaving
Jun-19	dr Pannucci spent a lot of time with me discussing how I looked and felt and made sure that I was happy with the results and had my questions answered. he did an amazing job with my breast reconstruction and helped make this part of my cancer process much better. I am grateful for his talent and his and his staff s excellent care. thank you!
Jun-19	He never explained what the follow-up surgery would entail to me, only my family. We almost had a surgery that would have put me flat on back for 4-6 weeks.
Jun-19	I brag about Dr. Pannucci and his team all the time.

May-19 Dr. Pannucci is an excellent doctor! He explains everything so well and makes you feel so comfortable! He has been so great with reconstructing my breast since been diagnosed with breast cancer. I could not have had a better doctor.

Apr-19 Dr. Pannucci spent a long time with me at my post op visit answering all questions that I had. I was very happy with his surgery and the care I received after. he did an amazing job!!

Mar-19 Dr. Pannucci is an excellent doctor and surgeon. He has a great manner about him and I am very lucky he was my doctor.

Mar-19 I felt he was excellent explaining things in detail.

Mar-19 good

Mar-19 AWESOME!!! thank you sooo much!!

Mar-19

I feel like what I was told before I had the first surgery, up to now, are not the same. after 6 surgeries I would have thought I'd have more mobility in my hand. I'm told it takes time... so now I wait.... I hope all these 'Very Good' ratings are how I truly feel when this is all said and done.

Feb-19 Dr. Pannucci is obviously a very good doctor he seemed to care about what I was feeling and talked to me in terms that I could understand and felt comfortable with. he does seem to be a very busy man but his staff didn't make me feel as comfortable as he did. I feel kind of in the dark about my healing process. I feel like his staff or the hospital staff rushes me every time I have questions. I know that isn't his fault and I would recommend him to anyone. But to the other staff involved in this; bedside manner goes a long way in my book.

Jan-19 dr Pannucci took time to explain everything about my upcoming surgery and make sure that all of my questions were thoroughly answered

Jan-19 visit was fast but good. I appreciate Dr. P. telling us that although margins were clear, they were narrow. That had not been explained to us by other providers.

Nov-18 Excellent, Dr. Pannucci - Very Knowledgeable, Great Doctor, Would Highly Recommend.

Nov-18 Dr. Pannucci is very personable. He has a good bedside demeanor. He smiles from his eyes. That's what's important to me. I'm pleased with my breast cancer surgeries results.

Oct-18 Dr Pannucci went above and beyond for me and my daughter and she says he is the nicest doctor she has ever met and makes her feel important and cared for during this traumatic experience she went through, we couldn't have asked for a better surgeon and are so grateful for all his care and expertise and felt our daughter was getting the best care possible

Sep-18 I like Dr Pannucci. he seems very genuine

Sep-18 He was amazing. Answered all questions and was very good with ____.

Sep-18 I am very grateful to Dr. Pannucci and his team for what they have done for me.

Aug-18 Dr. Pannucci is incredible. He listens. He offers advice, and in a whole body way. He is confident, which instills confidence in what he says. I am extremely blessed to have him on my medical team.

Aug-18 Dr. Pennucci is an exceptional medical professional, very intelligent, knowledgeable, compassionate, and such a good listener. I could tell he spent time reviewing my records and issues before seeing me.

Jul-18 as I already said dr. Panucci and his staff are incredible. when I see dr. Panucci I am fully informed, giving choice, and fully apprised of all situations regarding my ongoing health problems. my confidence in Chris pannucci M D is without question and absolutely 100%.

May-18 He is a great doctor.

Apr-18 I feel I made a good choice about coming to Huntsman

Mar-18 Our experience with Dr. Pannucci and his entire team has been nothing but positive. From our first visit with our daughter after a traumatic accident to our most recent follow up the team has been responsive, professional, and treated us with kindness. We will always be grateful for Dr. Pannucci's expertise and clinical skills.

Mar-18 Probably not. I should have reminded him of the other area which needed assistance. He would have noticed if more attention to notes would have been taken. Had a bad experience with my stay in the hospital also.

Nov-17 Could not have had a better experience!

Aug-17 Dr Pannucci is awesome! He understood who I am and how to heal and still be able to run. I really appreciate his kindness and great care for me after breaking my hand.

Aug-17 Dr. Pannucci is good at what he does and wants his patients to be happy with the treatment completed. i would commend him for any further surgeries.

Jul-17 very professional and caring

Jul-17

Dr. Pannucci is awesome. He took the time to understand that I wanted minimal time off from training for my 100 miler. He showed lots of concern for my running plans in the next few weeks so I could heal and still do my thing. Awesome experience and I would totally recommend him to everyone I know.

Jun-17 great doctors

May-17 great doctor who helped me save my leg. Thank you so much!

Mar-17 Dr. Pannucci saved my leg!! He is beyond excellent in his specialty and I cannot find enough words to explain my gratitude!

Feb-17 Dr. Pannucci and Joanna Manum were both so great. They explained what they were doing and why. Great Team!

Jan-17 There are no words to describe the care I have received from Dr. Pannucci and his fellow, Alvin. Dr. Pannucci has treated me with his incredible talent as a surgeon, and more importantly as a person. I sing his accolades wherever I go and to whoever will listen. Where my recovery currently is, is due to Dr. Pannucci and his talents as my surgeon.

Nov-16 Dr. Pannucci was extremely knowledgeable about my situation even tho I had never seen him before. He explained every aspect very thoroughly.

Oct-16 I called the clinic to ask about my daughter, who was't a patient, yet Dr. Pannucci called me back and answered my questions. This is when he noticed that my son had been scheduled wrong

Oct-16 There needs to be a higher number to rate the excellence in care Dr. Christopher Pannucci has provided me. I was admitted to the U hospital and taken to emergency surgery 2 days later. I had no idea who Dr. Pannucci, my surgeon, was but after meeting him and talking with him I knew I was in more than capable hands. Dr. Pannucci was precise in telling me the medical issue along with what he did during the surgery, and what the plan was for future surgeries to take care of the problem. I had some personal issues at home that only I could deal with and Dr. Pannucci listened to me and understood my needs. He was beyond in his understanding and worked with me so as I could take care of my personal needs as well as taking care of my health needs. I have only worked with one other surgeon that has taken the time to listen to me and to take into consideration what I was saying as they planned their medical care of my physical needs. At my office visit with Dr. Pannucci was exactly the same compassionate surgeon that I dealt with in the hospital. During my office visit after his examination of my open wound he outlined his plan for me very clearly what he expected from me for him to be successful in getting me healthy again. Dr. Pannucci needs to be held as an example to all other medical teams he deals with as an exemplary surgeon in his surgical skills, but more importantly how to deal with patients. His residents that work with him need to realize and understand how fortunate they are in having the opportunity to learn from Dr. Pannucci. There are no words to express the outstanding experience I have had and am having with Dr. Pannucci.

Aug-16 Pannucci makes me feel safe and secure and well taken care of.

Jul-16 Dr Pannucci is one of the best doctors I have ever had. Can't say enough about his professionalism, care and concern!

Jul-16 Cancer can be an awful diagnosis but everyone I see at Huntsman makes it so much easier. There is not enough time and space to say wonderful things about Dr Pannucci, his skill and his whole team. My surgery decisions were easy after the discovery of my BRCA 2 mutation. I have complete trust in my surgeon and he did everything he could to get me to where I am today. I couldn't be happier with my care. Thank you.

Jul-16 dr. Pannuchi is amazing!

Jun-16 I am so pleased with the doctor and confident I'm getting the best care .very good at answering all my questions and concerns recommend.

May-16 Always great.

May-16 Dr. Pannucci is great!

Apr-16 I would highly recommend Dr Pannucci to anyone he is a very talented Doctor. I have met way to many Doctors over the years and he puts most of them to shame. Great Job Doc

Apr-16 This was a great pre op visit for both my husband and me. The Dr carefully explained all the options, different surgery choices, gave me the choice to cancel the scheduled surgery if we needed more time, etc. He made sure we understood this decision I had made. We both had full confidence in Dr Pannucci and his team. As a retired RN, I was fully aware of risks of surgery, etc. yet I was calm and ready for this surgery.

Mar-16 Very impressed by this surgeon

Mar-16 I owe him much. The best!!

Jan-16 Very pleasant and friendly, did well with my two year old daughter.

Jan-16 I have been to many Different doctors at Huntsman through my illness, and Dr. Pannucci is the best one out of all of them!!!

Aug-15 I would definitely want the care provider again

Aug-15 couldn't be happier w Dr Pannucci's care and the results he has achieved w/me!

Jul-15 Professional, yet personable and approachable... treats the patient with respect and like they have brains, thank you!

Jun-15 I wasn't prepared for some of the results/recovery from surgery. I wish I had known what to ask prior to surgery. Maybe going over the procedure in more detail before surgery would have been helpful for me. I would have understood where some of the pain was coming from.

Jun-15 Dr Panuchi? is the kindest doctor I have been around and so is his resident doc he has with him. I cannot remember his name, but he is equally as nice. These guys are smart and have good people skills. that is rare these days.

May-15 Dr. Pannucci is outstanding. He always takes the time to fully explain everything. He is very easy to talk with and he inspires great confidence in his expertise and surgical recommendations. We are fortunate to have him in Salt Lake City.

- Apr-15 I think that rather than putting the fear of death into a patient, Doc could go over pros AND cons. Not just drill every little horrible thing that can go wrong over and over. I did understand my risks but I felt like i was being told, inadvertently, that my decision was the wrong one. As it turned out, none of the horrors actually occurred and 4 days out I am pleased with the outcome, although imperfect. I get that your doctors need to make patients aware of the risks, but when things go wrong, there are alternatives... it's not necessarily the end of the world....
- Mar-15 Dr. Pannucci represents the absolute gold standard in a physician/surgeon - outstanding surgical skills and the best demeanor. He is very easy to talk with and ask questions regarding past and upcoming surgeries. He inspires the greatest confidence in his ability to provide solutions and achieve the desired results, regardless of how difficult the challenge. Thank you!
- Jan-15 Dr. Pannucci is exceptional in every way. His knowledge and expertise are outstanding. However, it is his demeanor, willingness to give whatever time I need, and his ability to communicate that he genuinely cares about me as a person and not just a unique procedure, where he really stands out. He has seen me through a very difficult time, and I have the highest confidence in him. I feel very fortunate to have a doctor of his incredible talent and kindness.
- Jan-15 all good
